## Experience

### Magnisys Technologies

Front-End Developer Jan 2022 - Present

As a Frontend Engineer, My role revolves around crafting engaging user interfaces for web applications. I collaborate closely with UX/UI designers, translating design concepts into seamless and responsive frontend experiences. Proficient in HTML, CSS, and JavaScript frameworks like React or Next JS.

### Fitaye - Fitness App

On demand service Jan 2021 - Aug 2023

FITAYE Mobile App allows coaches to create a unique profile with custom configurations; including custom packages, pricing, location and decision on private or group classes. Furthermore, coaches will upload a 30-second intro video for clients to get to know a little bit more about them!  
(React-Native, ReactJS, NodeJS)

Web:- <https://www.fitaye.com/>  
Android:- <https://play.google.com/store/apps/details?id=com.fitaye.app>

### Octopus

Beauty and Fitness Oct 2023 - Ongoing

Looking to find the “right” salon, spa, fitness studio or aesthetic clinic? Beutics is a mobile app that lets you book a local spa, salon, fitness or cosmetic dermatology in just a tap.  
(React-Native, ReactJS, NodeJS)

Web:- <https://development.theoctopus.ai/>

### Rescuecare

Medical and Training certification Dec 2022 - jan 2023

A web App which helps generate training and medical certificates in PDF after getting information from the user.  
(ReactJS, NodeJS, MYSQL)

Web:- <https://rescuecare.in/>
